- ✓ 3D Adjustable

Composite doors and hatches

Accedoo develops and produces certified plug-and-play composite ship doors and hatches.

In shipping, new (lightweight) materials are becoming more popular, as they reduce the total cost of ownership. Accedoo ship doors and hatches are a perfect example of saving on both weight and maintenance.

- Thanks to our modular mould system custom sizes are available.
- Our watertight doors and hatches are certified by Bureau Veritas.
- Applications: seagoing-, fishing-, naval ships, cruise ships, fast ferries and mega-yachts.
